Mr. Ovid Butler, Editor
American Forests
1713 K Street N. W.
Washington, D. C.

Dear Ovid:

Paul Errington has asked me to transmit to you the attached manuscript, "Northern Bob-White Winter Losses." He has asked me to go over it for alterations, but I find none of the kind which I might make without changing the structure. I have no criticism of the structure except that it may be too "scientific" in form, but this I will have to ask you to decide.

I do not remember your running any papers with bibliographies, references, etc., but if you are willing to do so, the paper is, in my judgment, excellent as it stands.

If you use the article in its present form, Mr. Errington wishes to order 400 reprints and requests that the forms be kept open for an additional order from the Iowa Fish and Game Commission, concerning which he will doubtless let you know shortly.

With best regards,

Yours sincerely,

Aldo Leopold
