Dear Paul:

Your last letter is the best news I have had from you in a long time. I am really quite delighted that you are beginning to get some satisfaction out of the Iowa set-up, and relieved to know that the disadvantages are no longer so serious. It also makes me feel better about the apparent failure of the several alternatives I had attempted.

Thanks for sending me the reference to the silenium paper. Twomey is asking for financial support from the Institute committee. The question will come up at the next meeting.

With best regards,

Yours sincerely,

Aldo
