Dear Paul:

Thanks very much for sending me Raymond Pool's paper. I will add it to my collection on prairies.

Walter Scott has made an excellent large-scale map of Prairie du Sac by enlargement from the aerial photographs of the A.A.A. I have gotten a print to Albert Gastrow so that he may enter covey locations, etc., on it. Such a map may help decipher his data. The map is to be reduced as soon as Gastrow has entered the farm boundaries, and I will send you a reduced copy. If in the meanwhile you have any need for a large copy, either Scott or I can furnish one.

I hope to get around to our joint paper shortly.

With best regards,

Sincerely yours,

Aldo
