Dr. Paul L. Errington
Iowa State College
Ames, Iowa

Dear Paul:

Thank you very much for sending me Braestrup's discussion of die-offs. I was in the very act of ordering a copy when your copy arrived. I gather from your note that you do not want it back. If I am mistaken, please let me know. Braestrup's argument impresses me very much, and I am sending a copy of this letter to Bob Green in order to make sure that he gets to see the paper.

I have started reading your horned owl bulletin, but I am not far enough to entitle me to an opinion as yet. I am, of course, delighted that it is now in print. I can only say that the data are beautifully organized, but I am not sure that the interpretative comments are as clear as the quail bulletin.

With best regards,

Sincerely yours,

Aldo
