Dear Walter:

I just came across the memo of your telephone call about Gastrow's 1942-43 field notes. They are still in Errington's hands, and I am calling his attention to your early need for a copy. I can appreciate that you need a copy in order to complete your own accounting to the Pittman-Robertson inspectors.

Perhaps Errington is now in a position to send you a copy, and the original can reach you later.

Yours sincerely,

Aldo Leopold

How is it coming, Paul?
