Dear Paul:

I have forgotten who is the official repository for the originals of the old Gastrow Journals. Is it you, or the Conservation Department, or myself?

The tentative census for Prairie du Sac is already out of date. Albert has found two new coveys of 24 and 16 birds. Bandings amount to 14 to date.

What are prospects for the publication of the Prairie du Sac paper? I hope it is clear to you that our disagreements over details in no wise dampens my interest in seeing the thing in print.

With best regards,

Aldo
