Department of Zoology  
Iowa State College  
Ames, Iowa

Dear Paul:

Thanks for the reprints from the Quarterly Review. While, as you know, my group does not agree with you on the interpretation of some of the Wisconsin data, I think you have done a masterly job of assembling the questions bearing on population mechanisms. For this reason I think your paper has outstanding value.

I am told that the next meeting of the Ecological Society is to be in<sup>x</sup> St. Louis and that Elton has been invited. My acceptance of the symposium assignment was conditional on his getting here. I will keep you posted when I get any further news.

Yours as ever,

*Aldo*
