Dr. L. H. Pammel,  
Botany Department,  
Iowa State College of Agriculture,  
Ames, Iowa.

My dear Dr. Pammel:

I was pleased to receive your letter of March 25 and I hear very good reports concerning Dr. Ada Hayden's ability as a teacher from several persons who know her and I see no reason why Dr. Hayden cannot do the teaching work here this summer as well as a man.

I would be pleased if you would have Dr. Hayden send her application direct to Director George T. Avery of this College who has direct charge of the summer school work and when we are in receipt of her application I shall take the matter up with Director Avery personally.

Thanking you very much for the information, I am

Yours truly,

*A. K. Petersen*

Botanist.
