

March twenty-fifth,
1921

Mr. A. K. Peitersen,
Fort Collins, Colo.

Dear Sir:

I am in receipt of your favor of the twenty-third, asking me to recommend a man to teach in your summer school at a salary of \$200 - \$225. I cannot suggest a man to you to take up this work, but I am glad to suggest to you, a lady in my department; Dr. Ada Hayden who is my "right hand helper" in my teaching work in plant morphology, systematic and general botany. She is one of the most capable teachers we have on our staff. Dr. Hayden is also familiar with the region around Estes Park, having spent a summer there with Br. Ramaley.

Kindly let me know whether you would like to have her make application for this work.

Yours truly,

P/T.
