American College Bur.  
Evanston, Ill.

Concerning Miss Ada Hayden; I have known Miss Hayden from the time she was a student in the highschool, through her college course at Ames, college course at Washington University in St. Louis to the present time. In addition to the above institutions she did special work in the University of Chicago, University of Iowa and summer school at the University of Colorado. She is a very capable energetic woman of the very highest character. I consider her an unusually well equipped woman in every way. She is helpful to her students, always willing to do perhaps more than she should. I have on many occasions had her take my individual classes in Botany and she has independent charge of several lines of work here at Iowa State College.

She has a pleasing personality and I am sure will give good satisfaction wherever she is. You can not give her too high a recommendation.

Yours truly,

P/T.

Head of Botany Department,  
Iowa State College.
