

IOWA STATE COLLEGE
AGRICULTURE AND MECHANIC ARTS
DIVISION OF AGRICULTURE

CHARLES F. CURTISS, DEAN AND DIRECTOR

AMES, IOWA

April 20, 1920.

Dr. L. H. Pammel,
% College.

Dear Dr. Pammel:

I am enclosing letter from Miss Hayden complaining about the attitude of some of her students. On inquiry, I find that Buck, Mullens, Cormany and Munson have made trouble before this in some of their other classes, and that they have shown a wrong attitude concerning their work and exerted an unfavorable influence over other students. Mr. Moravets' record appears to be good, aside from this one report against him. My suggestion would be that these men be held strictly accountable; that they be dropped from class if they do not comply with regulations, or failed in the subject if their work is not satisfactory.

Very truly yours,

C. F. Curtiss
m

P. S. Letter from Miss Hayden sent you under separate cover in campus mail this morning.
