Professor L. H. Pammel,  
College.

Dear Professor Pammel:-

I have your good favor of recent date with enclosure relative to Miss Hayden's work on the conifers.

I am very glad indeed to know that she is doing research work along lines that seem to meet the needs of the profession. I believe that we ought to make it possible for her to do the work suggested, if it can be done without interference with the regular work of your department.

Yours very sincerely,

*SW Beyer*
