

IOWA STATE COLLEGE
AGRICULTURE AND MECHANIC ARTS
AMES, IOWA

DIVISION OF INDUSTRIAL SCIENCE
S. W. BEYER, DEAN

4

October 9, 1919.

Dr. L. H. Pammel,
College.

Dear Dr. Pammel:-

I have your good favor of recent date with enclosures from Drs. Martin and Bakke. I shall be very glad indeed to give the matter careful consideration, and assure you that I am in full sympathy with co-operating with the National Research Council, and any other organization that is committed to help along the good work.

In regard to official business from the departments: I will not recognize any recommendations from members of the instructing corps who are not in official charge of a department, unless they have the verbal or written O. K. of the head of the department, or are officially designated to represent the department.

With best wishes, I am,

Yours very sincerely,

S. W. Beyer
