

Dr. F. H. Paunell.
Dept. of Botany.
Ames, Iowa.

7-H.

Dear Dr. Paunell: - I am expressing
today some plants - most of them
are honey plants. - they should be
placed in driers since some of
them are fresh.

Your letter was received today.
The camera came Saturday. I did
not know it was in use. Hops
it did not inconvenience any
one. I thank you for having

it sent.

Mr. Baker is in favor in pursuit of
Barberries.

Ran across a very interesting bee near
as Gutterberg.

It is now about time for the
Ferry.

Very truly,

Geo. Hayden

Sept. 2. 1919.
