

Dr. L. H. Pammel.

Ames, Iowa

Dear Dr. Pammel:— Your recent letter in regard to my appointment in the Botany department was received and I regret the delay in answering it.

I am now prepared to say that I will accept it, provided my work proceeds satisfactorily here.

I have received a number of notifications of U. S. positions with salaries of \$4500 - \$5000 per. mo. but I'm sure that I should not like the work so well as this.

Tulip, gingko, Va. creeper and Lasso-
fras trees had their leaves all taken
off by the ^{old} weather here. They are
leafing out again. Had a regular
blizzard.

Sincerely,

Ada Hayden.
