Nov. 6, 1909.

Miss Ada Hayden,

St. Louis, Mo.

Dear Miss Hayden:-

Your kind favor of recent date at hand and this is simply to acknowledge the receipt of the letter and to say that I am much interested in what you are doing.

With reference to the Academy of Science, the annual dues are one dollar and I presume that you have received the notice as to whom the money should be paid. I will, however, find out whether we had your name proposed; I think was, if it was not it was entirely an oversight. I will write to Prof. Ross of Des Moines about this matter.

Yours truly,
