May 3, 1910.

Miss Ada Hayden,

St. Louis, Missouri.

My dear Miss Hayden:-

I am in receipt of a communication from Prof. Stanton in which he says:

"The Finance Committee at its meeting last week had before them your communication recommending the appointment of Miss Ada Hayden as instructor in Botany for the coming school year, at a salary of \$500 per annum. Her services are to begin Sept 1st, 1910, and her salary to be paid upon the ten months basis. Your recommendation was ordered reported to the Board of Education for favorable action."

This will be somewhat less than I had expected, as they have made a shift in the instructional force with reference to when the salary is to begin.

Yours truly,
