

Dr. L. H. Pammel,

2712

Ames, Iowa,

Dear Dr. Pammel:- I received your letter and one from the ~~head~~ <sup>Library</sup> of Science at Des Moines stating that my name had been accepted & telling me to whom to pay the dues.

I want to express my appreciation of your kindness in looking it up, also for the favor of lending me the thermometer tubes which arrived this evening. Wish you had charged the express. I shall be more than glad to have some made whenever you need them however.

Found a fine bunch of *Oscillatoria* this week - a number of species among them some of the red ones. This means some more of Gomant I suppose.

I procured a German dictionary this week & I am going to attack Wiegand's German dissertation again.

We're having some rains here now.

With regards to the dept. & to your family, I am,

Sincerely,

Ada Hayden,

4233 Sherandoak Ave.

St. Louis.
