

Dr. L. H. Pammel

27/12

Amer. Iowa.

Dear Dr. Pammel. Recd
your letter last evening.

Do not understand from your
letter whether you wish to have
the water colors made here
or after I come home.

Do you want water colors made
of the plants which you men-
tioned in your letter?

Was expecting to leave about
the 16 or 17th but can stay a
day or two if you want the
water colors made here.

Received my degree and all
seems to have been satisfac-
tory. The faculty all wore
their caps & gowns and
made quite an impressive
procession as they pro-
ceeded across the campus.

to the next chapel where the
exercises were held.

Hoping to hear from you
as soon as possible.

Sincerely,

Ada Hayden.

June 11, 1910.
