Philadelphia. May 11, 1914.

Dear Miss Butler,

Your letter of April 26 and your description of your trip thro' the Yellowstone Park were duly received. We were glad to learn that your journey home had been safely accomplished and that you found everything very pleasant there. I have read your Yellowstone account throughout and enjoyed it all, and believed it all — except the story of the glass cliff & the elk. But it is easy to understand why I stopped at that — you didn't vouch for it yourself.

Mrs. Calvert joins me in kind regards to your Mother and yourself.

Yours very truly

Philip P. Calvert.
