Davenport, Iowa

Dear Mr. Peterson

Congratulations as the new regional editor of the Middlewestern Prairie Region.

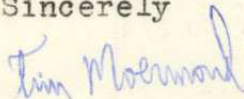

Unfortunately I have had little time to go into the field this fall. As a result my coverage of the migration was very incomplete. I did not make out a report on the fall migration for this reason. I felt my fall records were too inadequate to be of importance.

I do hope, however, to continue to contribute records to AUDUBON FIELD NOTES. The complications which hindered my field work this fall will not interfere with my winter or my spring reports.

In June of this coming summer I intend to travel through Mexico. Although June is several months away, I have been searching for information on Mexican birds. My search has been fruitless, however. I was hoping that you might have suggestions or advice as to a book on birds of this area. I would deeply appreciate any help you can give me on this matter.

I shall look forward to working with you in the future. Merry Christmas!

Sincerely

Tim C. Moermond
