CEDAR RAPIDS, IOWA 52404

August 23, 1976

Dear Mr. Halmi:

In checking over my bird records for the Field Notes Of IBL, I find I omitted a rather rare species seen during this quarter. A Summer Tanager was seen in Cedar Rapids on May 18th. If you can include this record with those I mailed yesterday please do so. Sorry about this.

Sincerely yours,

Lillian Serbousek
