

The regular meeting of the Ottumwa Bird Club was held Nov. 4th, 1943, in the Courier Auditorium with an attendance of 38.

Mr. Walter Aikens of the Conservation Dept. spoke on "Relationship of Birds and Fish." Many questions were asked by members which were very willingly answered by Mr. Aikens.

Pres. Ayres brought up the question of bringing a speaker from the Audubon Society here and putting on a program, charging admission. He was instructed to write for more information and to see what could be done as to a meeting place. etc. A reel of pictures from the Society which could be obtained with little expense was also discussed, but there was so much red tape about it, it was finally decided to do nothing about it.

Meeting adjourned.
