Jim;

Did you get my message Re: The Scissor-tailed Flycatcher I observed at the Iowa Arboretum Friday, 15 June late P.M.? I was helping out with the Youth Hunter Safety Challenge at the 4-H camp. I watched the bird for 10 minutes. It would sit on the high tensile wire fence on the west side occasionally flying out toward the west chasing insects. I observed it again half an hour later flying between and perching in the trees southwest of the gazebo. I asked Jerry Keys to pass this info on to.

Mike M
