Ibis Plegadis sp.

Brown, W. H., 1963, General notes reports. Iowa Bird Life 33:37-41. p 38

"The very rare White-faced Ibis was found on 19 May by Bob Nicholson in a marsh south of the Salix exit on interstate 29. Five other Sioux City birders saw this on the same and following day. Two of the species were in the marsh on the second morning." 10
