SPECIES	NO.	DATE	LOCATION - COMMENT - OTHER OBSERVERS
Cooper's Hawk			only about a dozen singles this fall
✓ Broad-winged Hawk	20	8/12	Call St. PK 16 in kettle 4 in trees
✓ " "	4	8/19	" " in trees
✓ " "	5	8/21	" " / trees only a few singles in Sept
✓ Swainson's Hawk	1	9/23	near Burt, Kossuth Co. adult
✓ " "	1	10/12	near Irvington, Kossuth Co. adult
✓ Red-tailed Hawk	1	8/12	flyover Call St. PK KRIDER'S
✓ " "	1	11/11	USNWR KRIDER'S Hunting
<p>How uncommon are these supposed to be? I saw about 10 between these two dates showing Kriderish tendencies. A few sightings might have been the same individuals, as they were in the same general areas a few days apart. The two listed above were white-headed, white wing-pannelled in the primaries, with base of tail white fading into a pinkish-rust terminal band, and <u>very</u> pale patagial mark! <u>no belly band!</u></p>			
✓ Harlan's Red-tailed	1	10/21, 23	USNWR same area both days charcoal-black coloring with heavily ^{white} mottled underwing coverts, white streaked chest. in flight + perched in corn stubble + tree on 21st + 50yds No trailing dark edge to flight feathers (silvery-pale flight feathers) but finely barred, as was tail. suggests <u>immature</u> as did heavily barred black + white under tail coverts + <u>very</u> long tail.
✓ Rough-legged Hawk	7	11/11	USNWR 3 in 1 field hunting with 2 Red-tailed + 1 Harrier
✓ Merlin	10/10	1	USNWR perched on power pole 50yds pale, no
✓ " "	10/19	1	flyover Algona <u>male</u> mustache, female or imm. spotted backwings (Richardson's)
