Dear Mr. Halmi,

The following is a list of sightings, that I felt significant enough for inclusion in the Field Reports section, of the next issue of Iowa Bird Life.

Date	Species	Number	Location
DECEMBER 28, 1976	MARSH HAWK	5	ROLLING COVE AREA, LAKE RATHBUN RESERVOIR
DECEMBER 28, 1976	AMERICAN KESTREL	1	ISLAND VIEW AREA, LAKE RATHBUN RESERVOIR
DECEMBER 28, 1976	SHORT-EARED OWL	1	ROLLING COVE AREA, LAKE RATHBUN RESERVOIR
<u>DECEMBER 28, 1976</u>	<u>SNOWY OWL</u>	1	ISLAND VIEW AREA, LAKE RATHBUN RESERVOIR
JANUARY 2, 1977	MARSH HAWK	1	S.E. OF FOREST LAKE BAPTIST CAMP, WAPELLO CO.
<u>JANUARY 2, 1977</u>	<u>NORTHERN SHRIKE</u>	1	NEAR OTTUMWA MUNICIPAL GOLF COURSE, OTTUMWA
JANUARY 2, 1977	LOGGERHEAD SHRIKE	1	RURAL ROUTE NO. 6, OTTUMWA

I see Loggerhead Shrikes in this area on a fairly regular basis, for what its worth! Where have all the Pine Siskins gone? Will be looking forward to hearing of any reports of them, in next Iowa Bird Life.

Gary Wymore
