

Iowa  
Snowy Owls 1976-77

---

70.	- Months observed
1	- October 1976
24	- November 1976
47	- December 1976
93	- January 1977 = 55.3%
3	- February 1977

168 Total to date Feb. 8, 1977

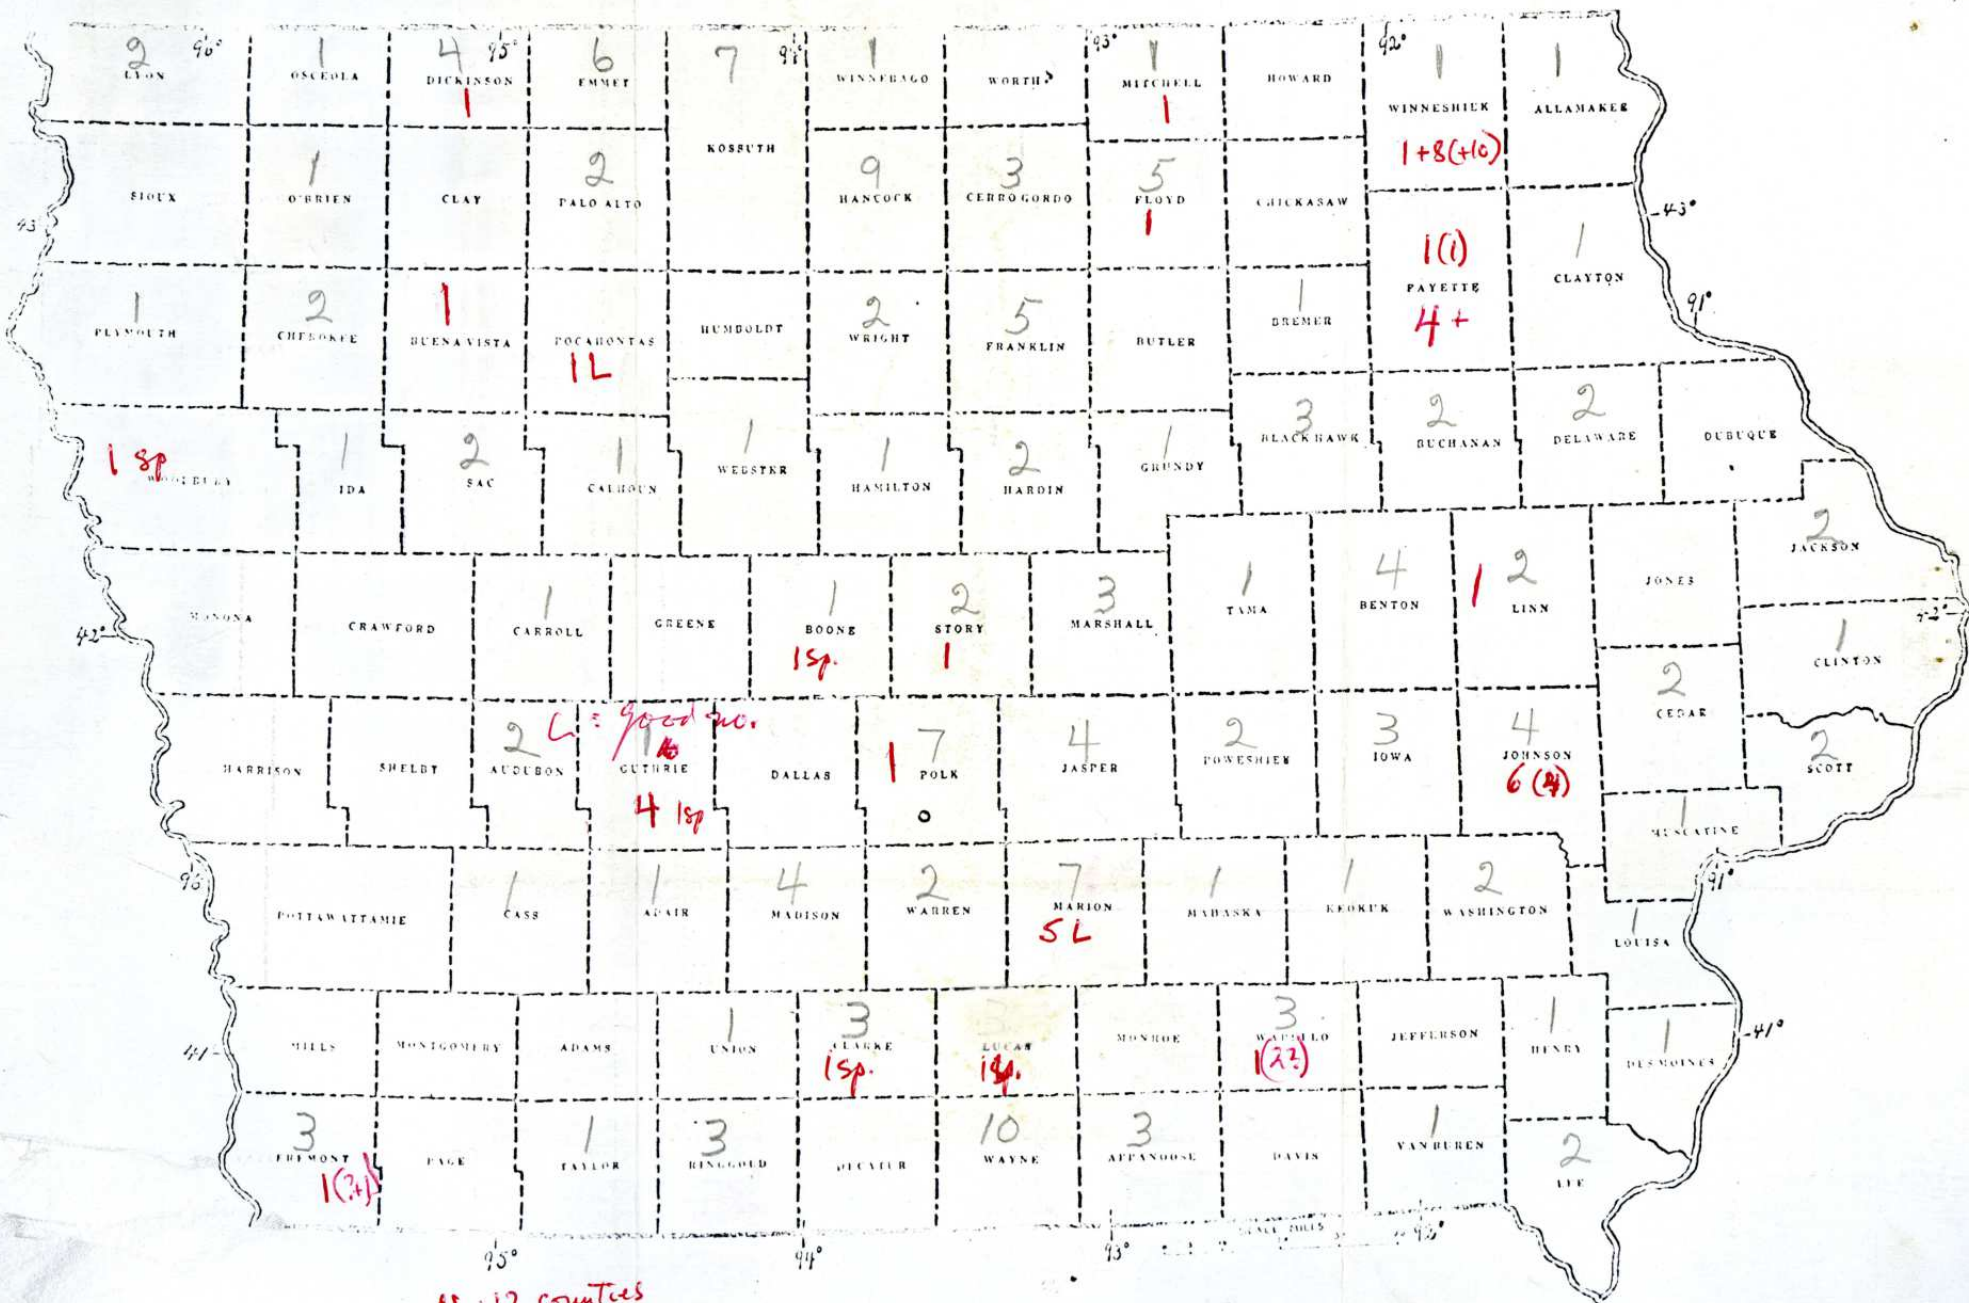

The Snowy Owl west of Pleasantville in the east edge of Warren County was present from mid Oct, through Nov. to Dec 20, 1976 but I counted it for Oct.

Gladys Black

N.B. possible duplications in Polk and Wayne Counties but even if several were removed this is still a Major Invasion, greater than any I have ever known. I have written Fred Pierce, Winthrop Ia, 30 years Editor IBL, for his opinion but haven't rec'd a reply yet. He is the only person who would have a state wide view of the 1926-27 invasion, heavy in the East but was it heavy in Iowa? I don't know!
