Dear Carl,

Following are some bird sightings you may wish to include in your Fall, 1990 report.

August 20	2 least terns at Riverton Wildlife Area
August 21	1 least tern at Riverton
August 21	1 Ibis sp. at Riverton
August 28, 29	1 Imm. Peregrine Falcon at Riverton
Sept. 13 - Sept. 21	1 Ibis sp. at Riverton

The falcon was not a Prairie falcon because it did not show the black axillars under the wings.

Sincerely,
Carl M. Diehl
