4-16-95

Dear Tom,

Re: David French

Was too busy during winter to get back to you regarding David French's activities in Wellman.

I believe the first reporting was on 1-18-95. That is the date of my phone call to you. Jim since of the following additional reporting which I made:

2-7-95	9:20 AM
1-31-95	7:20 AM
1-22-95	4:20 P.M.

Attorney William S. Vernon of Cedar Rapids rented the bunk room all living room windows at the same time I rented it on 1-22-95. My wife (V.) also saw it, but Jim's memory of the date.

I saw the bird either 6 or 7 times.

Every one Barbara Henderson exhibited the bird at least 2-3 times the first week in March. They both saw the bird March 8 and March 9 (last date), (over) I didn't see

the bird in March.

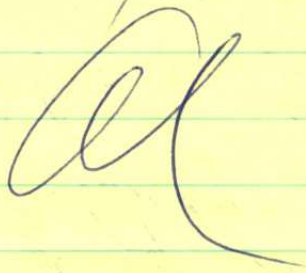

Hope your birding is going well this year.

We didn't see many goldfinches or purple finches until about a month ago. We have since had hordes of goldfinches and quite a lot of purple finches.

Saw a cock pheasant at our feeding station this morning on getting home from Church. Had seen 2 cock pheasants a couple of months ago (at the same time). Vic and I came home around 10:30 AM (when we normally are at work) and there he was eating corn.

With Best Regards,

Sincerely,

A large, stylized handwritten signature, possibly 'A', written in dark ink.
