WINTER REPORT NORTHWEST IOWA Feb 5<sup>th</sup>  
CHEROKEE AREA

Tom,

To date this has been an average full winter  
my observations areas follows:

MALLARDS IN SMALL bunches ARE STILL IN THE AREA.

Small flocks of TURKEYS SEEN AND IN RATHER WATER.

SHARP SHINNED HAWK 1-DEC 17<sup>TH</sup> AT OWAHA AND 1-DEC 19<sup>TH</sup> AT MAPLETON.

1 DEC 16<sup>TH</sup> NORTH OF CHEROKEE ON CBC

RED TAILS ARE HARD TO FIND IN CHEROKEE Co. THIS WINTER

WANT TO TRY A FEW PLACES BUT CAN'T NAME ANY

ROUGH LEGGED HAWK - SOME EARLY, NONE LATELY.

KESTREL - PRESENT IN SMALL NUMBERS

PHEASANT - DOING WELL

GRAY PARTRIDGE - DOING WELL AT THE FEEDERS

GRAY PARTRIDGE - DOING WELL AT THE FEEDERS

SHORT EARED OWL - ONE JUST NW OF CHEROKEE ON DEC. 26<sup>TH</sup>

RED HEADED WOODPECKER - HERE IN FAIR NUMBER AS MY CBC WILL ATTEST

HORNED LARKS - SCARCE UNTIL LATELY

RED BREASTED NUTHATCH - PRESENT AT MY FEEDER DEC 4 THRU DEC 8

ROBIN - MORE WINTERING THIS YEAR THAN MOST YEARS.

CEDAR WAXWING - NOT MANY THIS WINTER.

NORTHERN SHRIKE - 1 ON DEC 1<sup>ST</sup>, DOCUMENTATION INCLUDED.

LOGGERHEADED SHRIKE - 1 ON DEC 29<sup>TH</sup> NORTH OF CHEROKEE

Meadowlarks - very few seen this winter.

Redwing Blackbird - HERE IN SMALL groups

Rusty Blackbirds - HERE with Redwings.

Evening Grosbeak - NONE SEEN.

Purple Finch - AT my feeder from JAN 22nd To present Time

other feeders in CHEROKEE REPORT ANOTHER 1 OR 2

Redpoll - NONE

Pine Siskin - Comes in daily with a bunch of Goldfinches  
Goldfinches ARE common at ALL feeders around here.

Juncos - common

Tree Sparrows - more common than last winter.

Harris Sparrow - I would estimate 100-150 wintering in  
CHEROKEE Co. I have 4 TO 8 daily at my feeder

Lapland Longspur - none seen.

Snow Bunting - none seen.

As you can see winter has been dull up here around  
CHEROKEE. I hope to send you a better Spring report.
