" " "	5	June 30	5 fuzzy young - Liscomb yard
" " "	5	July 10	5 fuzzy young - Liscomb yard
			For at least 3 weeks or more we have been entertained by usually a nightly show at sunset of these young owls flying around our back yard and catching moths in the grass. There are 3 gray-phase owls and 2 red-phase young along with a striking red-phase adult we see at times. On June 30 around 1:30 p.m. on a hot day these 5 young fuzzy owls took turns splashing around in our big water dish (really a hog waterer) on the sidewalk as Robins and other birds scolded them. They've been a real treat!
Chuck-will's-widow	1	June 24	North of Waubonsie S.P. - (Fremont Co.)
Ruby-thr. Hummingbird	1	June 3	Stremmer Grove - (Marshall Co.)
