

Kroop

Marble Rock, Inoa

March 4, 1980

Dear Mr. Kent -

Sony this is late - but not too
much to say - have had the usual
as my feeders - plus American ~~Goldfinch~~
Goldfinch
that have fed every day since last
Nov. varying in numbers ^{from} a few to a dozen.
Last year they started feeding here on Feb 25.
Redpolls have been reported in the
area - but I haven't seen any so far. Think
I have fewer of most of the species
feeding here - maybe due to a different
winter than last year weatherwise - but
probably that is wishful thinking.

Am enclosing a stamped addressed envelope for
a copy of the sheet for reporting.

Sincerely, Pearl Kroop
