Les Murray

Dr. Dinsmore,

I will be in Ames sometime this week. I will try to catch you then.
We have found 5 Harrier nests(1 is a second attempt). All of them have
been in unharvested or in unharvested portions of CRP Switchgrass fields
in Lucas county. One nest was successful (at least 3 juveniles were seen
today) and we still have one with eggs that we found on 6/24.
We have seen/heard Henslows sparrows. A couple in Lucas, one in Monroe
and one in Appanoose counties.

Les
