TODAY, THE 1

From Davenport

WE HAVE HAD NO NEWS TODAY, ABOUT ~~THE~~ ^{SABINES} GULLS, ^{ONE ADULT AND ONE JUVENILE} DISCOVERED ON THE 13TH, WHEN THEY WERE SEEN ON THE SEAWALL JUST DOWNSTREAM FROM WHERE THE PRESIDENT FLOATING CASINO DOCKS. ON THE 14TH, THEY WERE A LITTLE FARTHER DOWNSTREAM NEAR THE CENTENNIAL BRIDGE AND O'DONNEN STADIUM, BUT IN THE AFTERNOON THEY WERE SIGHTED ~~ALONG~~ ^{FROM} THE PARKWAY ^{ALONG RIVER DRIVE} IN MOLINE FIRST NEAR 32ND STREET AND LATER JUST UP RIVER FROM THE JUBILEE RESTAURANT. THE FIRST AREA - - - - -

~~TODAY~~ ON THE 15TH, A FEMALE WHITE WINGED SCOTER WAS OBSERVED AT CEDAR LAKE IN CEDAR RAPIDS. THIS AREA CAN BE SEEN FROM I-380, AND IS REACHED BY TAKING THE H AND J STREETS EXIT.

IN THE AFTERNOON, BOTH BIRDS WERE AGAIN SEEN IN BOTH IOWA AND ILLINOIS, FROM THE PARKWAY ALONG RIVER DRIVE IN MOBILE NEAR 32ND STREET, AND LATER JUST UPSTREAM FROM THE JUBILEE RESTAURANT.

----- Message Contents -----

Iowa Birdline (319)338-9881 for 10/14/91
The migration continues. Most warblers have now departed the state, except for YELLOW RUMPED, but a BLACKPOLL was seen on the 13th. Kinglets and sparrows are numerous, and ducks are beginning to push into the state.

① In news from Davenport, two SABINE'S GULLS, *AN ADULT AND A JUVENILE* were reported by Richard Pizer of Glenn Ellyn, Illinois. They were on the breakwater just downstream from where the President floating casino docks until dark on the 13th. One juvenile was relocated a little farther downstream near the John O'Donnell Stadium the morning of the 14th. This would be a second state record.

The GROOVE BILLED ANI discovered by Chuck Fuller just north of Burlington on the 5th was never relocated despite intense searching. That bird represents a potential second or third state record.

In the northwest, two WESTERN GREBES were present at Trumbull Lake in eastern Clay Co. on the 12th. There were also 3 lingering WHITE PELICANS. For more information, call Lee Schoenewe at (712)262-8194.

In the central, an interesting sighting from Jim Dinsmore at Ames. An immature NORTHERN GOSHAWK was being pursued by crows and flew through a glass window onto a porch at the home of Mary Buck. It was released outside and flew away, seemingly no worse for the adventure. Also in Story Co., at Hickory Grove Park there were still five shorebird species, including SOLITARY and WESTERN SANDPIPERS, and LONG BILLED DOWITCHER on the 13th. In the Red Rock area, at Pictured Bottoms, a LAPLAND LONGSPUR was seen on the 12th. *AT GRAMMER GRAVE PARK IN MARSHALL COUNTY, 5 WINGED AND 2 HERMIT THROATERS WERE FOUND ON THE 9TH.*

In the southeast, about a dozen EURASIAN TREE SPARROWS have been hanging out in their usual location north of Burlington. For directions, call Chuck Fuller at (319)753-0710. At Fairfield, Diane Porter saw 4000 CHIMNEY SWIS enter the high school building chimney on the 7th, but none on the 8th. Jim Fuller (319)338-3561

*WHICH IS BELOW LOCK AND DAM #15
THE FIRST AREA IS REACHED BY EXITING I-280 ONTO
HILWAY
601 FROM I-280 AND TURNING TOWARD THE RIVER
DOW MARQUETTE STREET OR IN THE AREA OF THE
CENTENNIAL BRIDGE AND O-DONNELL STADIUM.*

*THE SECOND AREA IS FOUND BY LEAVING I-74 ON THE
FIRST EXIT IN ILLINOIS AND GOING UP RIVER.*
