IaBirders,

It's too late for inclusion in the Summer Field Reports, but I had an = *Cathy*
interesting conversation with staff member Michelle McDowell at Union =
Slough NWR this morning. She reported hearing Henslow's Sparrows singing =
on a non-public part of the refuge into July while conducting point =
counts and waterfowl surveys. Maybe next year there's hope for me! =20

It was more of a social call to meet the new refuge manager (who wasn't =
there) than a birding trip, but I did see a single BUFF-BREASTED =
SANDPIPER, a couple of B.C. NIGHT-HERONS, and a late WILLOW FLYCATCHER.

Matthew Kenne
