Hi Jim,

Ron spends a good amount of time working outside and so he asked that I email you his cell phone number: (515) 971-2208. Just the same, you'll probably catch him in the house evenings or early mornings (he is an early bird -- gets up around 5 a.m.).

By the way, I helped a friend bail hay NE of Forest City (Winnebago County) on June 7 and saw a Swainson's hawk working the mowed hay field. Whether it was (is) part of a nesting pair, I don't know. Because Iowa Birds shows the last nesting record for this county to be prior to 1960, I will search the area for a nest. I've been out of town for the last 3 weeks, but am done "wandering" for a while now.
