

August 14, 1982

Dear Tom,

I received my Iowa Birdlife(Vol. 52 no. 2) today, and note that several of the dates for shorebirds reported by me are in error. According to my records, the following birds were seen on April 30--not April 7. The location and observers for these birds were correct.

Semipalmated Plover  
Willet  
Dunlin  
Marbled Godwit  
Hudsonian Godwit.

These were the only ones misdated. I am so sorry for the error and any inconvenience it has caused you.

Sincerely,

*Tanya Bray*
