

June 12, 1982

Dear Tom,

Regarding the sightings mentioned by Barb Wilson - both the Parula & Orange crowned were seen in ea. Neb. Most of our warblers are from Fontenelle Forest & elsewhere in Bellevue.

I just heard of 2 additional sightings from Neal Ratzlaff & his wife (536 Brentwood Rd., Omaha 68114). On May 19 -  $\frac{1}{2}$  way between, Ft. Dodge & Ames they saw 10 Golden Plovers & 2 Buff-breasted Sandpipers in a flooded cornfield.

If I can be of further assistance, please call or drop me a line.

Best regards,  
Babs Padeljord
