Dear Mr. Allert:

Sorry to keep you waiting but I have stoped at your place several times to give you this information and could not catch you home.

The date I saw the Bald Eagles was December 20th. At that time there was thousands of wild ducks and at no time could I find where the eagles were preying on the ducks. (Twelve Mile Island Clayton County)

May the 11th. I found the King Rail nest in Iowa Township on Mississippi River bottoms.

With best regards I remain

Vert truly yours

*George Kaufman*
