	3	2-26-82	✓		
HARRIS SPARROW	1	12-24-81 to 12-25-81	BACKYARD	FEEDERS - in patio 1 immature	(ova)

I am listing  
the birds that  
I have seen at my  
feeders in the  
backyard -  
who do not come  
regularly (except  
for brown creeper).

SABC

Just this is something  
of interest - to I O U us.

I've had 25-35 goldfinch  
regularly but not as many  
siskin or redpolls as  
other years.

Betty Walters has written  
of some birds we've seen  
together on our <sup>little</sup> field trips. "  
- I won't list these -  
Is this the way you wish  
us to proceed with  
this accounting?

Thank you  
SABC
