SWAINSON'S HAWK

This buteo was perched in a tree at the lower end of Arsenal Island, along with several bald eagles. It was in typical adult plumage with a dark breastband and large "whitish" ^{area} appearing below the band. It was about $\frac{1}{3}$ smaller than eagles.

Le Roy Dowd

2515 Crow Creek Rd. Bethel, ME 05701

seen from Doua - range 500m. approx

20X scope - Bushnell - O.C.
