## BIRDS: VERIFYING DOCUMENTATION OF AN EXTRAORDINARY SIGHT RECORD

1. Distance (how measured)?  1. Light (sky, light on bird, position of sun in relation to bird and you):  1. Description of bird, position of sun in relation to bird and you):  1. Distance with this species and similarly appearing species:  1. Light (sky, light on bird, position of sun in relation to bird and you):  1. Distance with this species and similarly appearing species:	1. Species Frairie Falcon 2. Number 1
4. Date: Neds. Feb. 3 1988  5. Time Bird Seen: 7:20 AM to  6. Description of size, shape and color-pattern (describe in great detail all parts of the plumage, and beak and feet coloration, in addition, to the diagnostic characteristics, but include only what actually was seen in the field):  This bird was reported to reast in an abandoned beam; I was waiting in the read for bird to tlush from born; he flew from the town of the field of the first of the field of the first of the field of the first of the fir	3. Location S.E. Cor. Section 33, Booth Township (T94-N, R34-W) Palo AHo Co., Lower
the plumage, and beak and feet coloration, in addition, to the diagnostic characteristics, but include only what actually was seen in the field):  This bird was responted to reast in an abandoned barn; I was waiting in the most for bird to blush from barn; he flew from the tway frack at Mushif end of barn, I research beart, flared over read of burned worth, as the flerand I could tell from vize to away hape that it was a large fulcor and from that dank weeled shaped area underwring at hady considered that it was the fruit of foliam. Its department was experienced fact and I did not set fucial patterns. I followed to care bear was a fact and I sight part to fine filling. It is a part of the part of the filling fact and I did not set fucial patterns. I followed to care bear and ready fact and I care bear to fill the filling fact and I followed to care bear to get the filling fact.  7. Description of voice, if heard: None  8. Description of behavior: flight extremely fact.  9. Habitat - general: open form lond; snow covered specific:  10. Similarly appearing species which are eliminated by questions 6, 7 & 8. Explain:  Teregrine Falcers: lighter along the transfer with a filling fact.  11. Distance (how measured)? I to of the I transfer with a filling fact.  12. Optical equipment: \$440 leils binace  13. Light (sky, light on bird, position of sun in relation to bird and you):  8 over each - no burn  14. Previous experience with this species and similarly appearing species:  15. Other observers: Bernie Knight Rom Horror and falcer flying Sone over (a. line to 0.0 7:27 AM  16. Did the others agree with your identification? Yes  17. Other observers who independently identified this bird:  18. Books, illustrations and advice consulted, and how did these influence this description Televisor: A Field Guite To Hawks; confirmed	
7. Description of voice, if heard: None 8. Description of behavior: Night extremely feet 9. Habitat - general: open forms land; snow covered specific: 10. Similarly appearing species which are eliminated by questions 6, 7 & 8. Explain: 11. Distance (how measured)? 100 ft 12. Optical equipment: \$140 lein binocu 13. Light (sky, light on bird, position of sun in relation to bird and you):  14. Previous experience with this species and similarly appearing species:  15. Other observers: Bernie Knight Ron Horms and Activated the Measured 16. Did the others agree with your identified this bird:  17. Other observers who independently identified this bird:  18. Books, illustrations and advice consulted, and how did these influence this description Reference: A Field Guide To Heavens; confirmed	the plumage, and beak and feet coloration, in addition, to the diagnostic characteristics, but include only what actually was seen in the field):  This bird was reported to reast in an abandoned bern: I was waiting in the read for bird to flush from barn; he flew from the bay frack at Marth end of barn, towards East, flared over road a turned Worth; as he flered I could tell brown viza taxing shape that it was a large fulcon and from the dark wedge shaped area underwing at body consirmed that it was the Prairie Folian. Its departance was extraorily fact and I did not see Sucial methods.
7. Description of voice, if heard: None 8. Description of behavior: Slight extremely fact 9. Habitat - general: open forms land; snow covered specific: 10. Similarly appearing species which are eliminated by questions 6, 7 & 8. Explain: Iteracy inc Falcers: lighter color 4 undercuits patters Extremed the Terces ind 11. Distance (how measured)? 100 ft 12. Optical equipment: \$440 leik binace 13. Light (sky, light on bird, position of sun in relation to bird and you):  8	beck as then Herry seems it in flight @ 7: 27 AM
8. Description of behavior: Flight extremely fact  9. Habitat - general: open forms land; snow covered specific:  10. Similarly appearing species which are eliminated by questions 6, 7 & 8. Explain:  11. Distance Falcers: lighter offer 4 underwards pattern climitated the Terces and the Terces and the Terces and similarly appearing species:  11. Distance (how measured)? 100 ft 12. Optical equipment: \$140 leifs binace  13. Light (sky, light on bird, position of sun in relation to bird and you):  14. Previous experience with this species and similarly appearing species:  15.
