SUBJECT White -winged Scoter

FOLD HERE

DATE

The subject bird was found on the Christmas Count 21 Dec. Two were seen at 11:30 A.M. in good sunlight with Goldeneyes and Mergansers. Two were seen. 7 power glasses and 20 power scopes were used. Scoters were close to size of Golden-eye but a little larger. They were blacker than female Goldeneye. White wing mark clearly seen. Watched for 15 minutes.

Seen also by Kelly McKay and Dick Hazel. All agreed.
