SPECIES	NO.	DATE	LOCATION - COMMENT - OTHER OBSERVERS
Habitat conditions were good but the weather left something to be desired as it was wet a good portion of the time. Temperatures were mild, which was nice when I was out. Birding was good, although I was unable to do as much as I would have liked.

Note: As you can see, not all of these are uncommon. However, I felt that it was necessary to report each of these birds in order to obtain an idea of what we can see in this county throughout the year. Thanks.
