Species	No.	Date	Location
Yellow-throated Warbler	1	Sept. 11	The front sidewalk at 320 E. Lee

The bird appeared slightly stunned. I suppose he must have hit something on our house. After we took these pictures from the rear and tried to approach from the front, he took off.

Strangely enough this is only the second Yellow-throated Warbler I've seen in Iowa, and the other was in the spring of 1982 in Des Moines. I believe Margaret Brooke reported that one.
