

Tom:

Here are a few recent sightings that have come across my desk. - Someone today (Robert Breckenridge of Des Moines) also reported 2 adult Bald Eagles from the Red Rock area (Hwy 92 between Knoxville & Ostaloua) but I assume that you have eagle reports already from the vicinity. (I also observed an immature near the dam on 11-14.) Sorry I missed last week's meeting. My wife still hasn't given birth, but I guess we can wait... Bob
