Use first few lines to give weather and habitat conditions. Use line(s) below species data to give additional details, if needed. Mail to: T. H. Kent, 211 Richards St., Iowa City IA 52240 by 1 Mar, 1 Jun, 1 Aug, or 1 Dec.

use initials of obsv. on species line

SPECIES	NO.	DATE	LOCATION - COMMENT - OTHER OBSERVERS
---------	-----	------	--------------------------------------

The water levels around Red Rock Lake have been very high most of the fall. The weather has been mild.

✓ Double-crested CORMORANTS 350 22 OCT RED ROCK LAKE

✓ BONAPARTE'S GULLS 150 6 NOV TAILWATER RED ROCK LAKE

PURPLE FINCH SEVERAL SMALL FLOCKS WERE SEEN IN EARLY OCTOBER

The waterfowl migration has been slow around Red Rock. I feel the birds either have used different migration routes around the lake, or have remained north due to mild weather.

Sincerely,
Robert E Thornburg
