8/22/92

Dear Tom,

I believe I made an error in the recent CBC writing in FBL - I said that the 1990 Smith's Longspur doc was rejected by the Illinois Records Committee. This record was in fact in Iowa, as Pete Petersen pointed out to me.

Enclosed is the document sent by Brian Blevins, the dresser. The Iowa Recs Committee may already have this doc: a "late fall" Smith's was not accepted (FBL 62:22) - apparently, this record?

Also - I do have quite a lot of CBC & Field Reports material; in fact, I have kept it all, filed by year. I also have the early correspondence between Nick Halverson & I about the Records Committee. I feel strongly, as you do, that this should be preserved & am happy to pass it on to wherever you or the appropriate Iowa committee feels is best.

Recently went to Oregon & Wash. - had fun - family trip, but went on Westport pelagic - S. Polar Skua & Elegant Tern were good. I need to go to So. California next!

Iowa rejected?

Regards,
Gerr
