211 Richards St
Jona City, Ia 52242

Dear Mr. Kent -

Larry Farmer, Westfield has asked me to write you to report the sighting on our farm 7 mi W of Hinton Ia on May 6 of a Cattle Egret Bubulcus ibis. There was a single bird and we observed it in our pasture "playing" with our cattle off and on for the entire day. ^(My husband and myself) We watched it thru binoculars from a distance of about 200 feet. The next day it was gone and we have not seen it since.
